

Titan - Street Lighting Cut Out

Titan AS / NZ

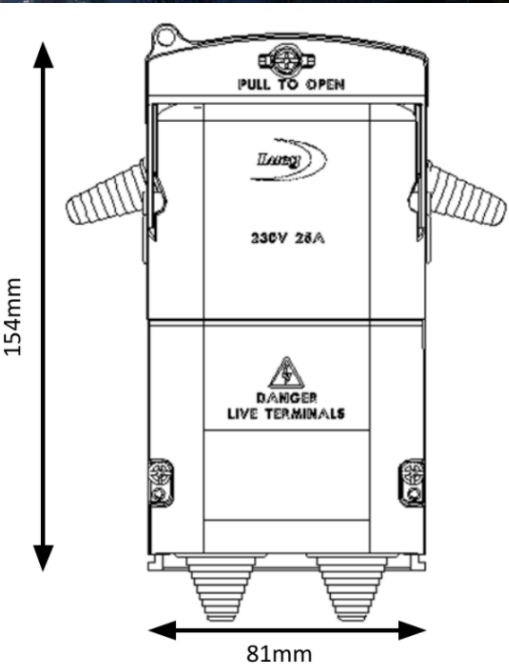

Specification

- Double Pole isolation
- Twin fuse, 25A maximum rating
- Designed and tested in accordance with BS7654
- AS/NZS 3000 removable MEN link in dedicated terminals
- Terminals for loop-in, loop-out supply cable
- Terminal blocks accept up to 25mm² conductors
- Accepts fuse links to BS88 Part 1, AC tag type
- IP22 rating

Features

- Cam operated lever for easy and safe fuse disconnection
- PA glass filled thermoplastic fuse carrier and base with interlocking covers
- Electro-tin plated terminal blocks and clips
- Terminal blocks equipped with serrated bored to aid cable retention with 3mm pinching screws
- Terminal blocks and contact clips retained by Torx security screws
- Fully shielded test probe access
- Clearly legible embossed terminal markings
- Insulated gland plate with cable entry via two 25mm diameter PVC conical grommets
- Angle upper cable exit assists drip arrest
- Pre-loaded PX2 Pozidrive corrosion resistant fixing screws to attach to backboard
- Captive cover screws suitable for Pozidrive or slotted fixing
- Separate DNO and Local Authority seal provision
- Fully recycable plastic and metallic parts

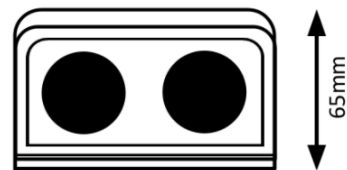

Titan - Street Lighting Cut Out

Titan AS / NZ

Construction

- Body and fuse carrier PA6
- Red incoming cable cover ABS
- Incoming/outgoing terminals electro-tin plated brass
- Contact clips electro-tin plated phosphor bronze
- Incoming cable grommets soft PVC
- Terminal screws brass 3mm slotted
- Backboard fixing screws bright zinc passivated steel

Performance

- Rated operational voltage 230VAC 50/60Hz
- Rated continuous current 25A
- Maximum environmental pollution Degree 3
- Environmental conditions -25 to +40 Celsius
- IP rating IP22
- Recommended terminal torque setting 2.25Nm

Alternative Options

- Extension troughs to cater for longer cable sizes
