DESIGNED FOR MULTI-SECTOR APPLICATIONS

# BM4-GR

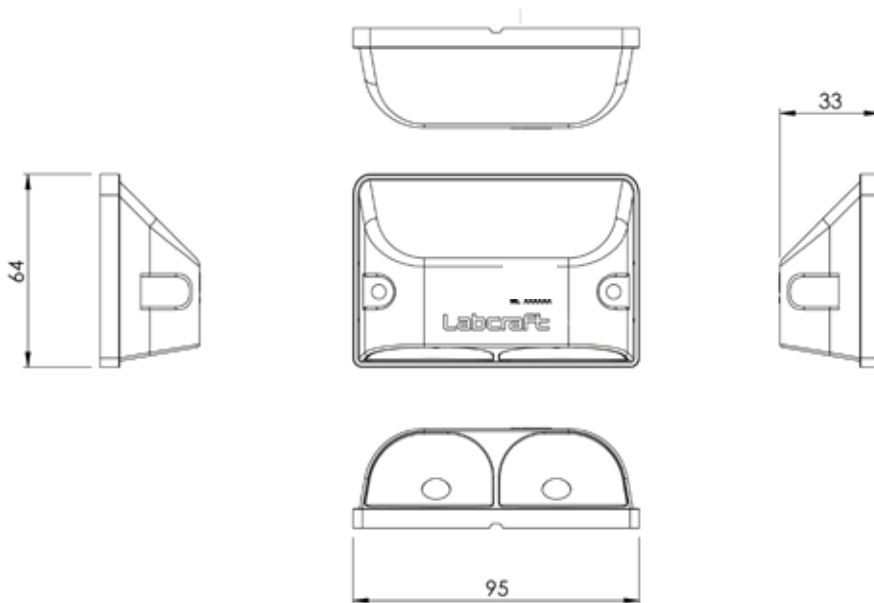

**Vertical installation** - Designed for vertical installation, this product can be installed onto a wide range of vehicles. The BM4 is ideal for fitting as tail-lift lighting and also for additional safety lighting to construction vehicles, such as aggregate trailers and tippers, beavertails, which are close to the ground, and also for smaller vehicles, such as vans.

**624 lumens** - Long life, high intensity Cree LEDs produce a clean white light generating 624 lumens, creating a safer working environment.

**Robust construction** - Manufactured from tough, lightweight Polycarbonate, this makes the BM4 resistant to impact and fracture offering high reliability and performance.

**Multi-voltage (10-32V)** - Engineered to suit a broad range of vehicles and voltages, the circuit can withstand changes in voltage and will provide consistent light output.

**Waterproof to IP67** - The BM4 is completely sealed using a waterproof compound process providing protection against severe weather conditions and pressure washing.
